

Chapter 3, Episode 2: Compromising barriers

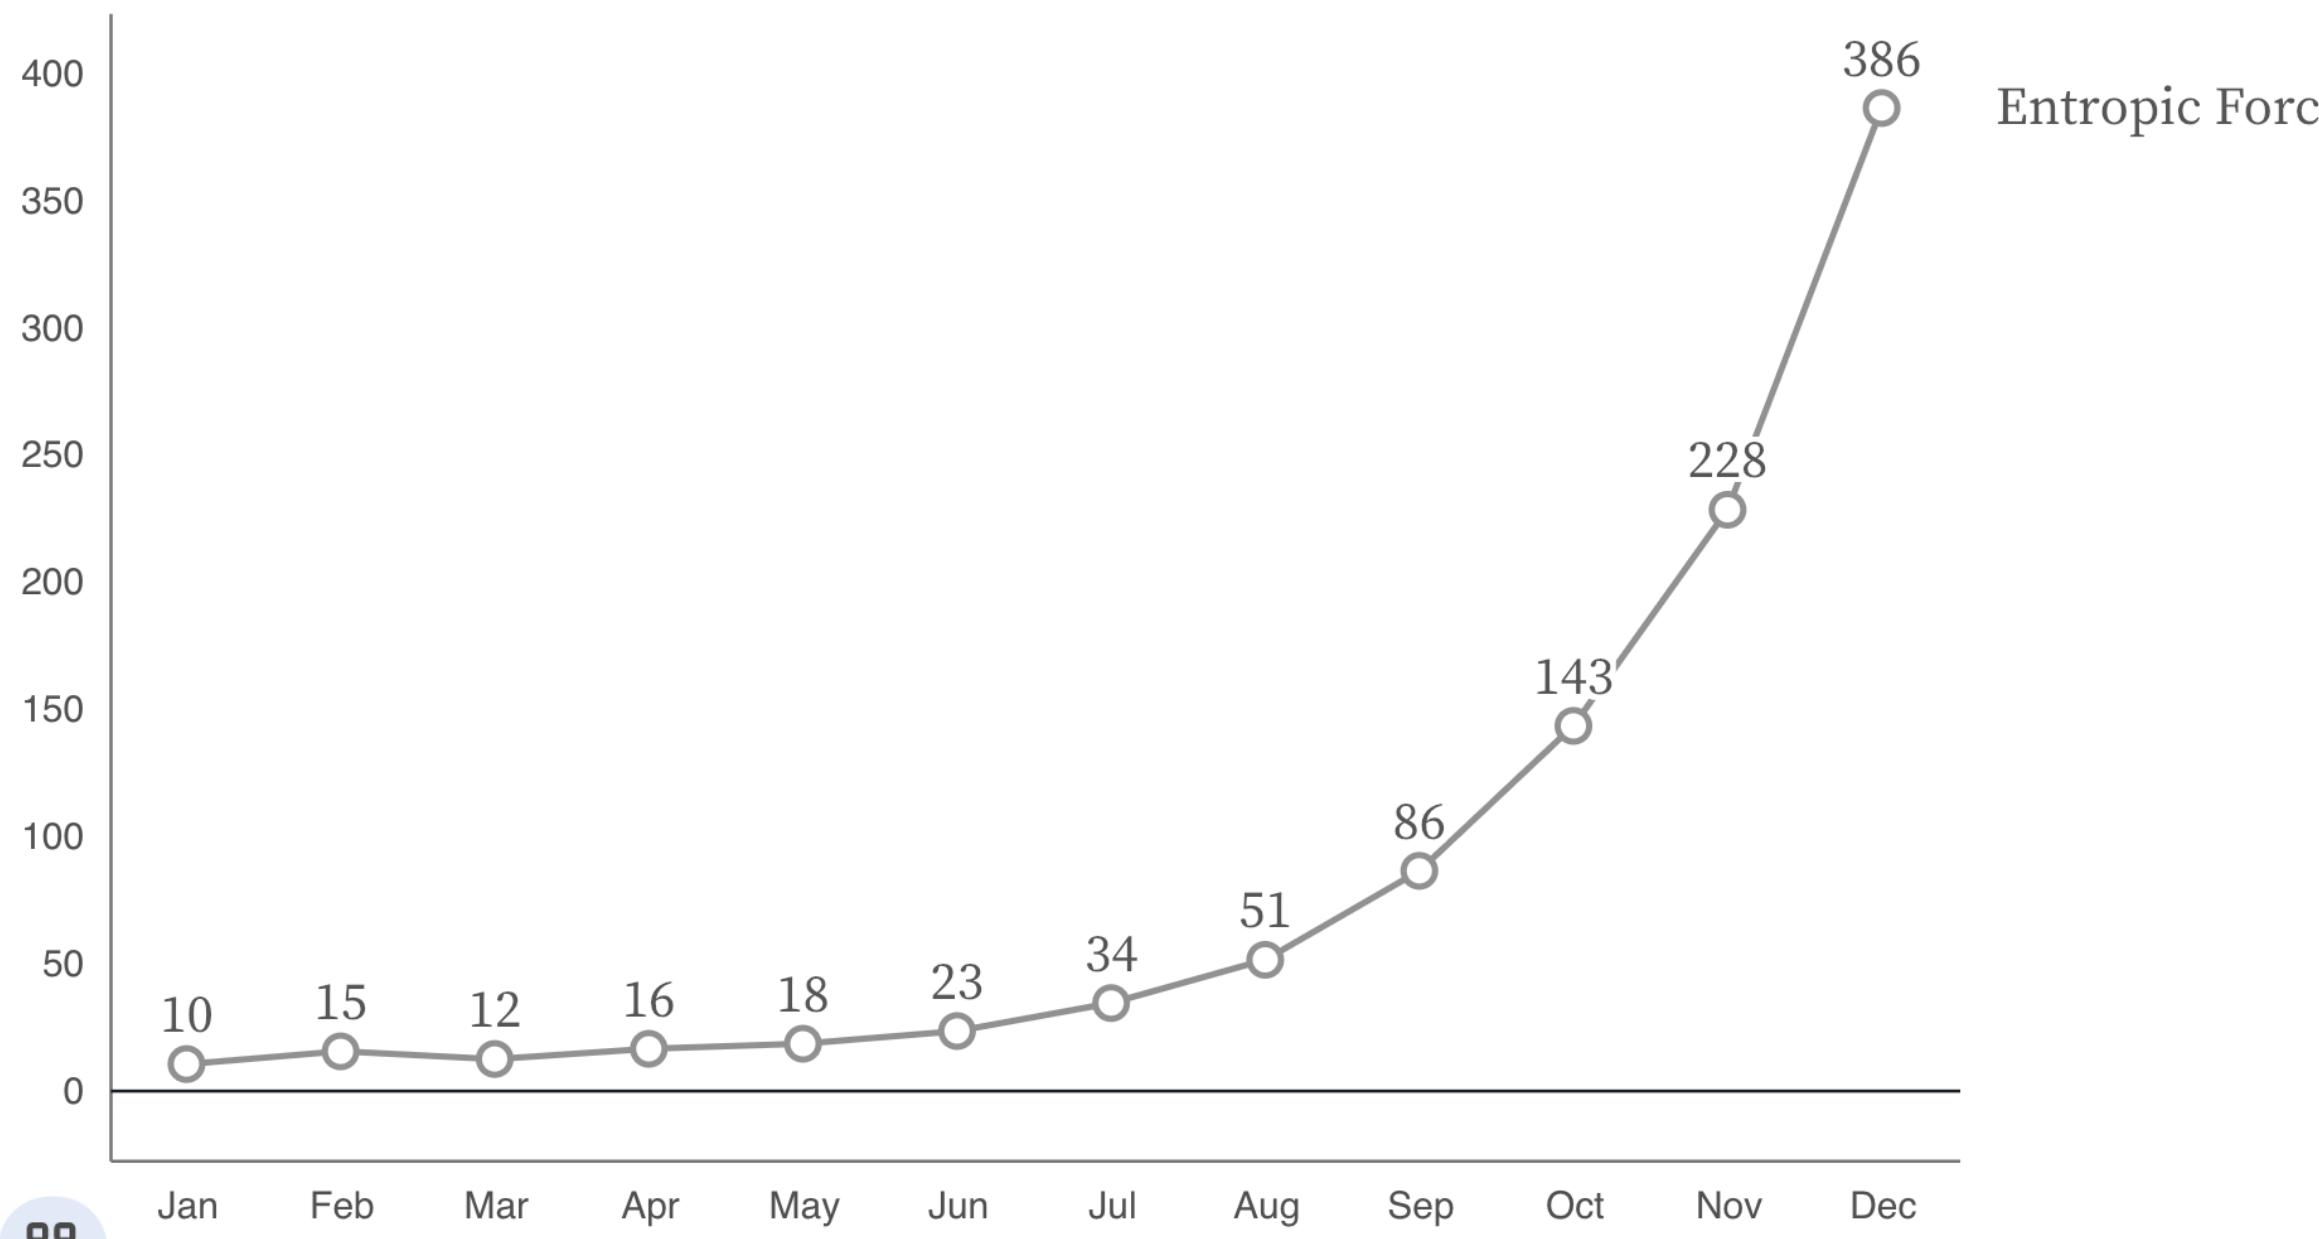

Compromising

Have multiple user flows been provided to reach each outcome or purpose provided?

All charts should have data available!

Entropic Force has Increased Exponentially

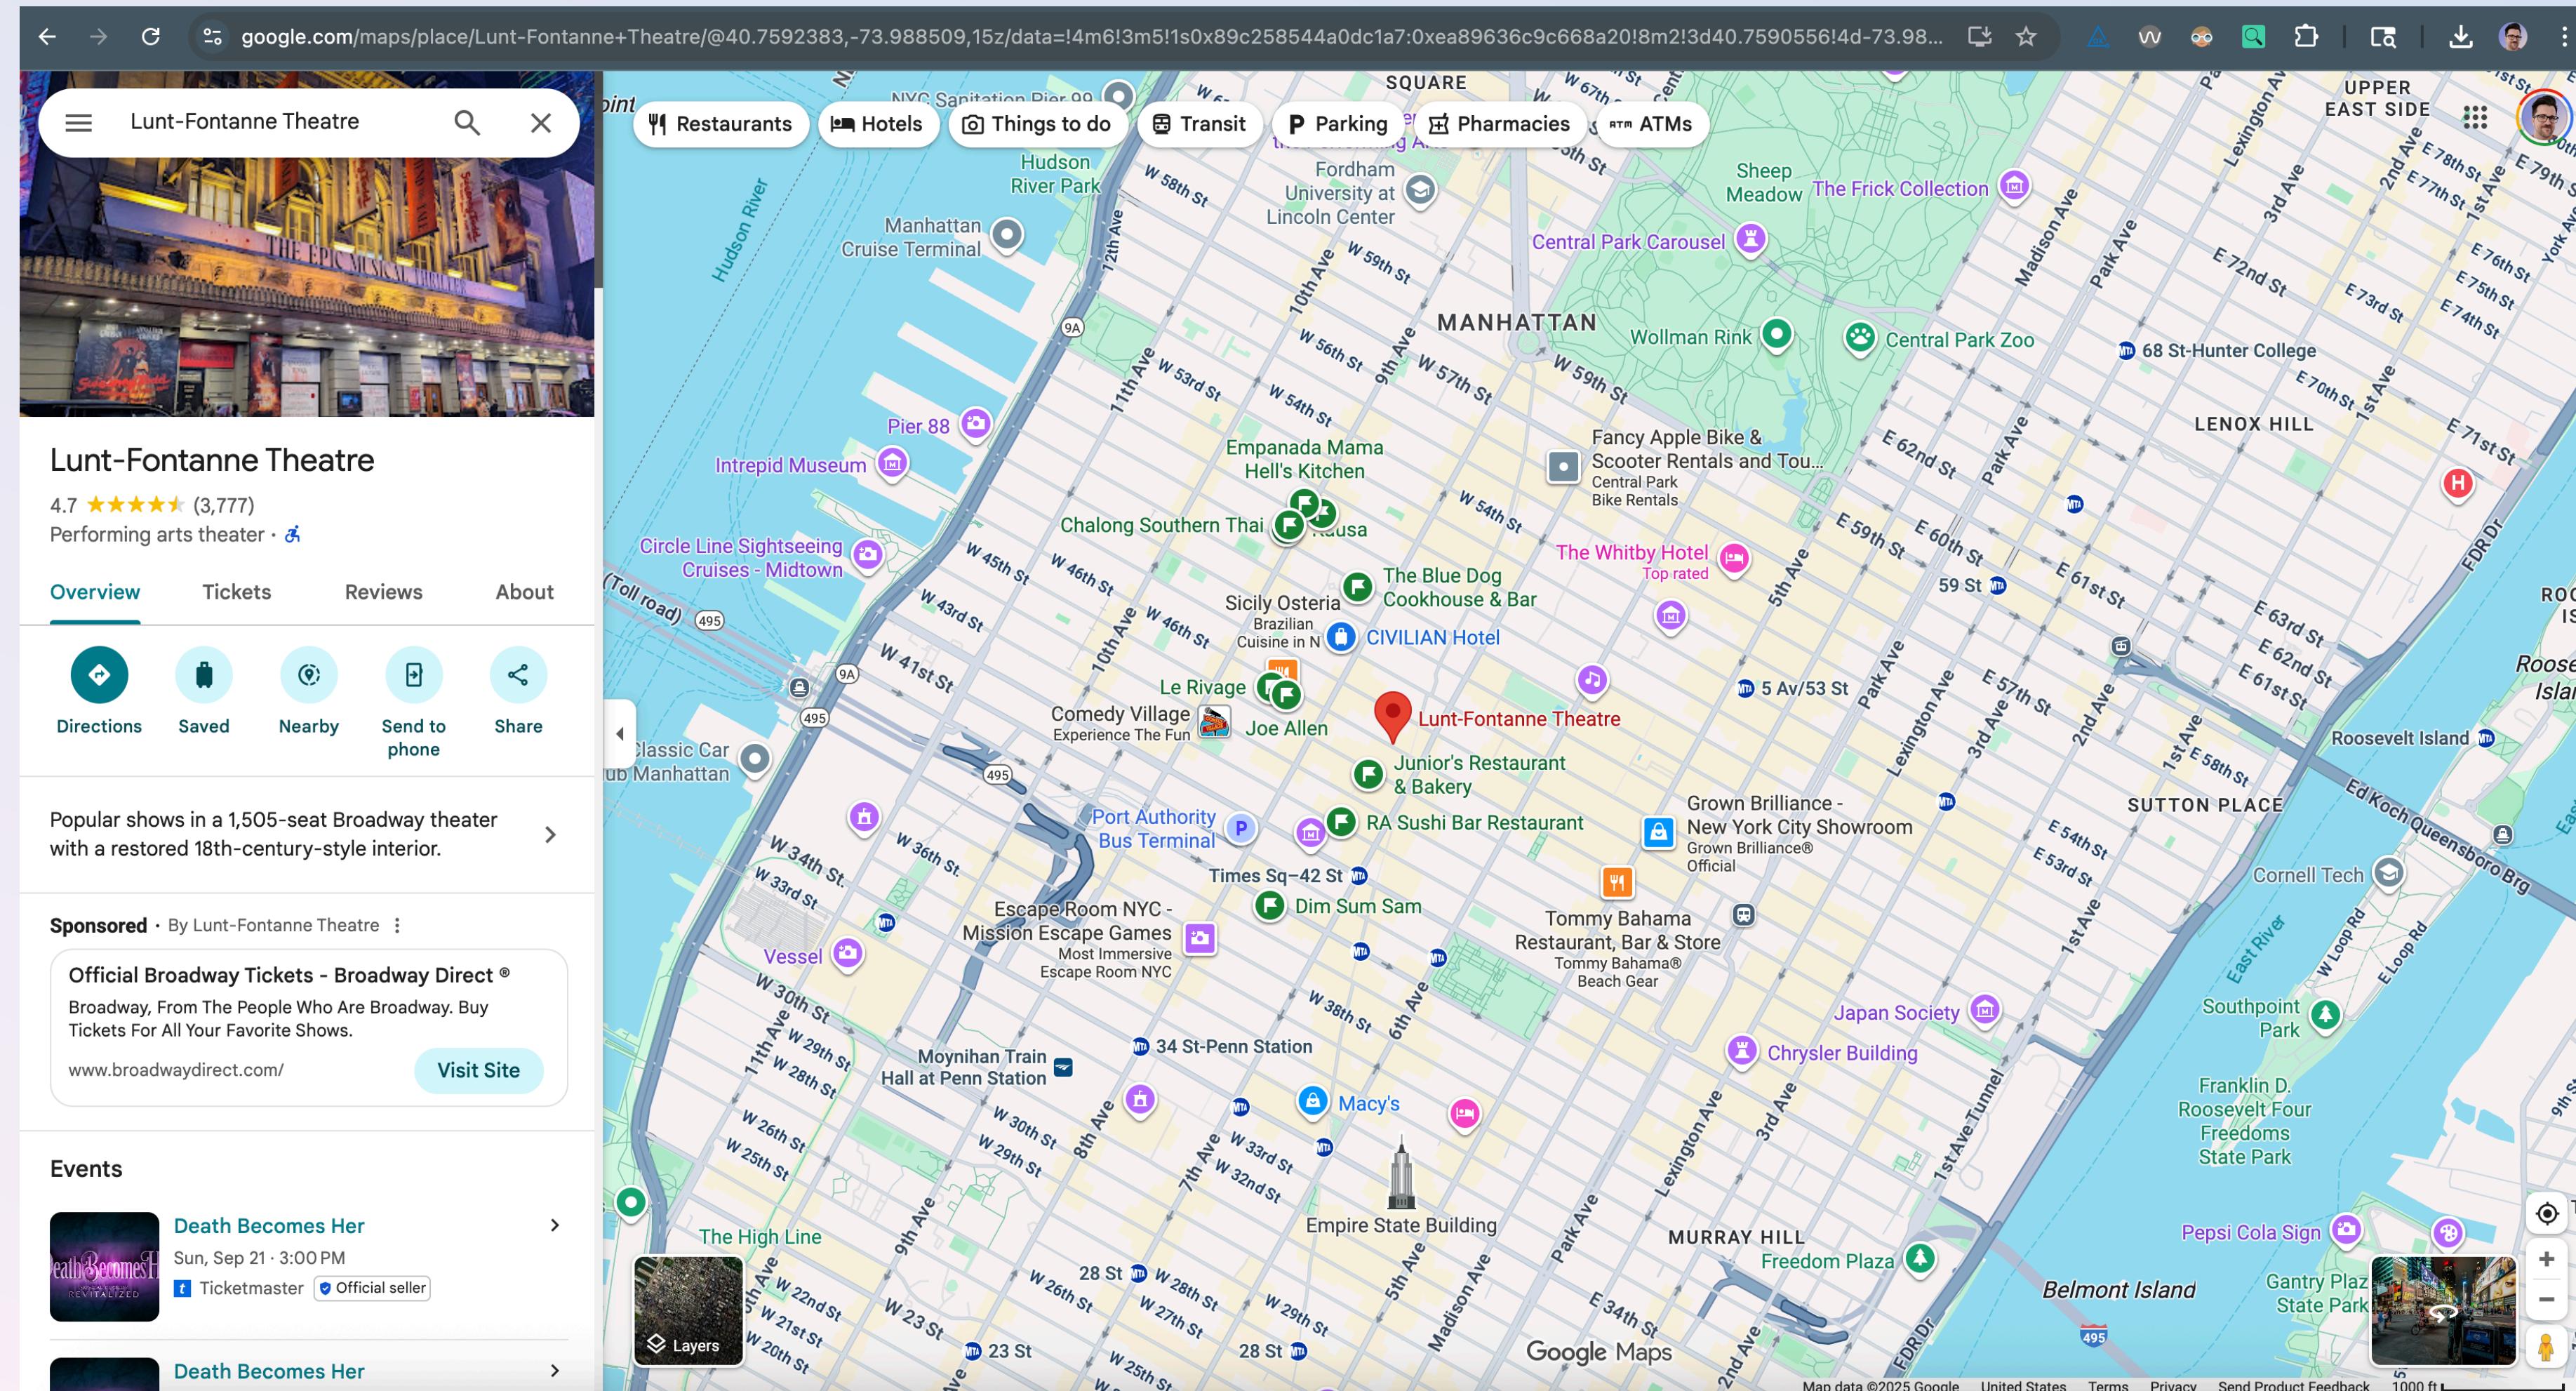

Measured in EF units (non-normalized)

A table titled "Entropic Force" showing monthly data from January to December. The table includes a header row with columns for Line, Date, Value, and Note. The data shows a steady increase in Entropic Force over time, with a note indicating the lowest value in January and the highest value in December.

Line	Date	Value	Note
Entropic Force	Jan	10	Lowest Value
Entropic Force	Feb	15	
Entropic Force	Mar	12	
Entropic Force	Apr	16	
Entropic Force	May	18	
Entropic Force	Jun	23	
Entropic Force	Jul	34	
Entropic Force	Aug	51	
Entropic Force	Sep	86	
Entropic Force	Oct	143	
Entropic Force	Nov	228	
Entropic Force	Dec	386	Highest Value

Shareability + history improve accessibility

The exact view of this map (sans my bookmarks), using a [simple URL link](#)

Compromising Evaluation Toolkit:

1. Is there an accessible table or downloadable data file provided?
2. Check for history/re-shareability: Does the visualization have interactivity that changes its state? Can you share it in that state? Can you easily re-do and un-do state?
